ANNUAL STATEMENT FOR THE YEAR 2025 OF THE PARAMOUNT INSURANCE COMPANY  
**NOTES TO FINANCIAL STATEMENTS**

---

**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of the statutory financial statements requires management to make estimates and assumptions that affect amounts reported in the statutory financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known which could impact the amounts reported and disclosed herein.

**C. Accounting Policy**

Statutory accounting practices vary from U.S. generally accepted accounting principles (GAAP). The more significant variances from GAAP are as follows:

**Investments**

Investments in bonds are reported at cost, or the lower of amortized cost or fair value based on their NAIC rating; for GAAP, such fixed maturity investments are held as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of surplus.

Under statutory accounting, a realized loss is recorded upon the sale of an investment at a loss or when a decline in the fair value of an investment is determined by management to be other-than-temporary. Realized capital gains and losses are determined on the first-in, first-out cost method.

For GAAP, the Company evaluates an available-for-sale debt security for credit-related impairment by considering the present value of expected cash flows relative to a security's amortized cost, the extent to which fair value is less than amortized cost, the financial condition and near-term prospects of the issuer and specific events or circumstances which may influence the operations of the issuer. Credit-related impairments are recorded as an allowance, with an offset to investment and other income. Non-credit related impairments are recorded through other comprehensive income. If the Company intends to sell an impaired security or will likely be required to sell a security before recovery of the entire amortized cost, the entire impairment is included in net earnings. The amount of the total impairment related to the credit

loss would be recognized in earnings. The amount of the total impairment related to other factors would be recognized in other comprehensive income.

**Nonadmitted Assets**

Certain assets designated as nonadmitted, principally deferred taxes, pharmaceutical rebates, claim overpayments, furniture and equipment, electronic data processing equipment and software, certain accounts receivables, prepaid expenses, and other assets not identified as an admitted asset in the NAIC SAP, are excluded from the statutory statements of admitted assets, liabilities and capital and surplus and are charged directly to surplus. In accordance with GAAP, such assets are included in the balance sheet, net of a valuation allowance, if necessary. Surplus was reduced by nonadmitted assets of \$782,000 and \$786,000 at December 31, 2025 and 2024, respectively.

**Guarantee Fund Premium Tax Assets**

The Company recognizes premium tax assets that are recoverable in excess of one year if the credits are due to the insolvency of a writer of long-term care contracts. For GAAP, the Company is only permitted to recognize premium tax assets that are recoverable in the next calendar year as credits against taxes owed on premiums earned in the current calendar year.

**Deferred Income Taxes**

The Company computes deferred income taxes in accordance with Statement of Statutory Accounting Principle (SSAP) No. 101, Income Taxes. Under SSAP No. 101, gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized to calculate the adjusted gross deferred tax assets.

Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets and (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused.

Admitted adjusted deferred income tax assets are limited to: (1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with the Internal Revenue Service (IRS) tax loss carryback provisions, not to exceed three years, plus (2) the amount of adjusted gross deferred income tax assets expected to be realized within three years limited to an amount that is no greater than 15% of current period's adjusted statutory surplus, plus (3) the amount of remaining adjusted gross deferred income tax assets that can be offset against existing gross deferred income tax liabilities after considering the character (i.e., ordinary versus capital) and reversal patterns of the deferred tax assets and liabilities. The remaining adjusted deferred income tax assets are nonadmitted.

Under GAAP, a deferred income tax asset is recorded for the amount of gross deferred income tax assets expected to be realized in all future years, and a valuation allowance is established for deferred income tax assets not expected to be realizable.

Unpaid assumed or ceded claims liability has been reported as an adjustment of the related reserves rather than as a net receivable or payable as would be required under GAAP.

Assumed premium receivable or ceded premium payable has been reported as an adjustment of uncollected premiums rather than a net receivable or payable as required under GAAP.

**Statutory Statements of Cash Flows**

Cash and short-term investments in the statutory statements of cash flow represent cash balances and investments with maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

**Other significant accounting policies are as follows:**

**Cash and Invested Assets**

Short-term investments, principally money market accounts, include investments with maturities of one year or less at the time of acquisition and are principally stated at amortized cost, which approximates fair value.

U.S. government securities not backed by other assets are recorded at amortized cost using the interest method or fair value based on their NAIC rating.

**Vulnerability due to Certain Concentrations**

The Company maintains its cash in bank deposit accounts, which at times may exceed federally insured limits. The Company has not experienced any losses on such amounts.

**Cybersecurity Risk**

Due to the information technology systems used by the Company and/or our third-party vendors, the Company may be the target of cyber-attacks and other security threats which could cause significant disruption in the Company's business. Programs are in place which are intended to detect, contain, and respond to data security incidents and provide employee awareness training regarding phishing, malware and other cyber risks to protect against cyber risks and security breaches. However, because the techniques used to obtain unauthorized access, disable, or degrade service, or sabotage systems change frequently and are increasing in sophistication, the Company may be unable to anticipate these techniques, detect breaches or implement adequate preventive measures and may be subject to breaches of our information technology systems or business interruption.

**Investment Credit Risk**

The Company invests in a professionally managed portfolio of securities, which includes obligations of the U.S. government and corporate bonds. Such investments are inherently exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks in such investments, it is at least reasonably possible that changes in risk factors in the near term could affect the varying value of individual investments and the related amounts reported in the Company's financial statements, and such amounts could be material. The credit quality of the portfolio at December 31, 2025 and 2024, is Class 1, as rated by the NAIC's Securities Valuation Office (SVO), which is the highest quality.

**NOTES TO FINANCIAL STATEMENTS**

---

**Other-than-temporary Impairment**

The Company reviews the values of the Company's investments on a quarterly basis. If the value of the investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been less than the amortized cost basis.
- The Company's ability and intent to hold the security long enough for it to recover its value.
- A significant deterioration in the earning performance, credit rating, asset quality or business prospects of the investee.
- A significant adverse change in the regulatory, economic, or technological environment of the investee.
- Factors that raise significant concerns about the investee's ability to continue as a going concern such as negative cash flows from operations, working capital deficiencies, or noncompliance with statutory capital requirements or debt covenants.

**Fair Value Measurements**

Assets recorded in the statutory statements of admitted assets, liabilities and capital and surplus are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

Level 1: Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

Level 2: Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates, volatilities, spreads and yield curves.

Level 3: Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

**Unpaid Claims and Claims Adjustment Expenses**

Unpaid claims and claims adjustment expenses represent management's best estimate of the ultimate net cost of all reported and unreported claims, less the estimated amount recoverable from claim overpayments and subrogation. The unpaid claims liability is actuarially estimated based on a review of historical claim payment patterns and claim trends. The estimates are subject to the effects of trends in claim severity and frequency, and a reasonable provision for adverse development has been incorporated in management's best estimate. Although considerable variability is inherent in such estimates, management believes that the amounts reported for unpaid claims and claims adjustment expenses are adequate. The estimates are regularly reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current period earnings.

**Federal Medical Loss Ratio Rebate**

The Company is subject to the Affordable Care Act (ACA), which requires the payment of rebates to eligible policyholders or enrollees when the amounts paid for health care benefits and quality improvement initiatives fall below specified thresholds. Separate calculations are performed for each state and by group size (individual, small group, large group and Medicare Advantage). At December 31, 2025, no liability was recognized on the accompanying statutory statements of admitted assets, liabilities and capital and surplus as the calculated amounts exceeded the applicable thresholds. At December 31, 2024 a liability of \$64,000 was recognized in aggregate health policy reserves on the accompanying statutory statements of admitted assets, liabilities and capital and surplus.

**Premiums**

Premiums are earned and recorded, net of amounts assumed and ceded under reinsurance agreements, pro rata over the period for which coverage is provided. Uncollected premiums include uncollected amounts from insured individuals and groups and are reported net of an allowance for amounts deemed uncollectible. Premium payments received prior to the period of coverage are classified as advance premiums.

The Company's MA premium revenues are subject to periodic adjustment under the Centers for Medicare & Medicaid Services' (CMS) risk adjustment payment methodology. CMS deploys a risk adjustment model that apportions premiums paid to all health plans according to health severity and certain demographic factors. The CMS risk adjustment model provides higher per member payments for enrollees diagnosed with certain conditions and lower payments for enrollees who are healthier. Under this risk adjustment methodology, CMS calculates the risk adjusted premium payment using diagnosis data from hospital inpatient, hospital outpatient and physician treatment settings. The Company and health care providers collect, capture and submit the necessary and available diagnosis data to CMS within prescribed deadlines. Risk adjustment data for certain plans of the Company are subject to review by the government, including audit by regulators.

**Medicare Part D Pharmacy Benefits**

The Company serves as a plan sponsor offering Medicare Part D prescription drug insurance coverage under contracts with CMS. Under the Medicare Part D program, there are seven separate elements of payment during the plan year. These payment elements are as follows:

- CMS premium: CMS pays a fixed monthly premium per member to the Company for the entire plan year.
- Member premium: Additionally, certain members pay a fixed monthly premium to the Company for the entire plan year.
- Low-income premium subsidy: For qualifying low-income members, CMS pays some or all of the member's monthly premiums to the Company on the member's behalf.
- Catastrophic reinsurance subsidy: CMS pays the Company a cost reimbursement estimate monthly to fund the CMS obligation to pay approximately 80% of the costs incurred by individual members in excess of the individual annual out-of-pocket maximum. A settlement is made with CMS based on actual cost experience, after the end of the plan year.
- Low-income member cost sharing subsidy: For qualifying low-income members, CMS pays on the member's behalf some or all of a member's cost sharing amounts, such as deductibles and coinsurance. The cost sharing subsidy is funded by CMS through monthly payments to the Company. The Company administers and pays the subsidized portion of the claims on behalf of CMS, and a settlement payment is made between CMS and the Company based on actual claims and premium experience, after the end of the plan year.
- CMS risk corridor: Premiums from CMS are subject to risk corridor provisions that compare costs targeted in the Company's annual bids by product and region to actual prescription drug costs, limited to actual costs that would have been incurred under the standard coverage as defined by CMS. Variances of more than 5% above or below the original bid submitted by the Company may result in CMS making additional payments to the Company or require the Company to refund to CMS a portion of the premiums it received. The Company estimates and recognizes an adjustment to net accident and health premiums earned related to the risk corridor payment settlement based upon pharmacy claims experience to date. The estimate of the settlement associated with these risk corridor provisions requires the Company to consider factors that may not be certain, including estimates of eligible pharmacy costs and member eligibility status differences with CMS. The Company records risk corridor adjustments to net accident and health premiums earned in the statutory statements of revenue and expenses.
- Coverage gap discount program/Manufacturer Discount Program: Health Reform Legislation mandated a consumer discount on brand name prescription drugs for Medicare Part D plan participants in the coverage gap. Effective January 1, 2025, the Inflation Reduction Act replaced the Coverage Gap Discount Program with the Medicare Part D Manufacturer Discount Program, under which manufacturers provide point of sale discounts on applicable brand drugs in the Initial and Catastrophic Coverage phases. This discount is funded by CMS and pharmaceutical manufacturers while the Company administers the application of these funds. Accordingly, amounts received are not reflected as premium revenues, but rather are accounted for as deposits.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE PARAMOUNT INSURANCE COMPANY  
**NOTES TO FINANCIAL STATEMENTS**

---

The CMS premium, the member premium and the low-income premium subsidy represent payments for the Company's insurance risk coverage under the Medicare Part D program and, therefore, are recorded as net accident and health premiums earned in the statutory statements of revenue and expenses. Premiums are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. The Company records premium payments received in advance of the applicable service period in advanced premiums in the statutory statements of admitted assets, liabilities and capital and surplus.

The Catastrophic reinsurance subsidy and the low-income member cost sharing subsidy (subsidies) represent cost reimbursements under the Medicare Part D program. Amounts received for these

Subsidies are not reflected as net accident and health premiums earned, but rather are accounted for as receivables and/or deposits.

Pharmacy benefit costs and administrative costs under the contract are expensed as incurred and are recognized in net accident and health benefits and general administrative expenses, in the statutory statements of revenue and expenses.

The final 2024 risk corridor amount was settled during the second half of 2025 and was subject to the reconciliation process with CMS. The final 2025 risk corridor amount is expected to be settled during the second half of 2026 and is subject to the reconciliation process with CMS.

**Uncertain Tax Policies**

The Company records uncertain tax positions on the basis of a two-step process whereby (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more likely than not recognition threshold. The Company recognizes the largest amount of tax benefit that is more than 50% likely to be realized upon ultimate settlement with the related tax authority.

Changes to liabilities for uncertain tax positions are recorded as income tax expenses in the accompanying statutory statements of revenue and expense. The total liability for uncertain tax positions at December 31, 2025 and 2024, was \$0 and \$0, respectively, included in net current federal income tax receivable in the statutory statements of admitted assets, liabilities and capital and surplus.

**ACA Risk Adjustment Program**

The ACA authorized a permanent risk adjustment program designed to transfer funds from qualified individual and small group plans with below average risks scores to those respective plans with above average risk scores. The estimates of amounts owed or due from the ACA risk adjustment program is required to be reflected as an adjustment to earned premium if sufficient data is available to make an estimate. The Company accounts for the Premium Stabilization Program in accordance with SSAP No. 107, Accounting for the Risk-Sharing Provisions of the Affordable Care Act.

In 2025, the Company recognized a loss of \$1,017,000 in net risk adjustment, of which \$978,000 of income related to the 2025 program year and \$39,000 related to the prior program years as the final settlement was unfavorable to the estimate recorded in the 2024 statutory financial statements. The company had a risk adjustment receivable of \$1,337,000 included in admitted assets at December 31, 2025.

In 2024, the Company recognized a loss of \$964,000 in net risk adjustment, of which \$692,000 of income related to the 2024 program year and \$272,000 related to the prior program years as the final settlement was unfavorable to the estimate recorded in the 2023 statutory financial statements. The company had a risk adjustment receivable of \$664,000 included in admitted assets at December 31, 2024.

**NOTE 2 Accounting Changes and Corrections of Errors**

During the statutory audit of Paramount Insurance Company, Inc. for the year ended December 31, 2025, our auditors, RSM US LLP, identified a prior period error in the Company's 2024 Annual Statement related to Drug Rebates and Discount Guarantees that were not accrued as of December 31, 2024. The omission resulted in an overstatement of 2024 statutory claims and liabilities of approximately \$1.5 million. Consistent with SSAP No. 3 – Corrections of Errors, the Company corrected this item through an adjustment to opening surplus as of January 1, 2025 in the annual statutory statement. The auditors will show comparative 2024 amounts restated in the 2025 Audited Financial Statement.

**ANNUAL STATEMENT FOR THE YEAR 2025 OF THE PARAMOUNT INSURANCE COMPANY**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 9 Income Taxes**

A. The components of the net deferred tax asset/(liability) at the end of current period are as follows:

The Company is taxed as a stock property and casualty insurance company and files a consolidated federal income tax return with MMO and other affiliates. The Company is party to a written tax sharing agreement with its Parent and other affiliates. According to the agreement each member pays taxes or receives credits (from the Parent) as if the member had filed a separate tax return. The payment is finalized for the tax year after the return is filed and/or after an IRS audit is completed. A member generating a taxable loss, or whose net operating losses (NOLs) or other tax attributes are utilized in the current year, or whose tax attributes are utilized, is compensated for such losses or attributes utilized in the year absorbed.

Deferred income tax assets (DTAs) and liabilities (DTLs) represent the expected future tax consequences of temporary items with differences generated by statutory accounting as defined in SSAP No. 101. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis statutory statements of admitted assets, liabilities and capital and surplus are compared.

Current federal income tax payable to Parent include all current income taxes, including interest, expected to be collected in a subsequent accounting period. Any tax related to the tax sharing agreement is included in the current federal income tax payable balance until the tax return is filed and amounts are then settled with the Parent.

The Company paid no federal income taxes during 2025 or 2024.

The Company is subject to federal income tax examinations by tax authorities for the years 2022 through 2025. The years 2021 and prior are closed.

At December 31, 2025 and 2024, there were no capital DTAs or DTLs. Components of ordinary DTAs and DTLs are as follows:

CMS uses a risk-adjustment model to determine premiums paid to MA plans according to the health status of covered members. Under the risk-adjustment methodology, all MA plans must collect and submit specified medical diagnosis code information from providers to CMS. This data is used to calculate the risk-adjusted premium payments to MA plans. The Company relies on providers to submit claims using proper coding practices and to appropriately document medical data. The Company conducts medical record reviews as part of our data and payment accuracy compliance efforts.

CMS has instituted risk adjustment data validation (RADV) audits to validate the coding practices and supporting documentation maintained by providers. If selected for audit, CMS could require the Company to refund premium payments if the Company's risk-adjusted premiums are not properly supported by medical record data. Currently, none of the Company's MA plans have been selected for audit. The Company is unable to predict if any of the Company's MA plans will be selected for future audit, or the amount of any retrospective or prospective MA premium adjustments that may result. Premium adjustments resulting from RADV audits could have a material adverse effect on the Company's operating results, financial position and cash flows.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE PARAMOUNT INSURANCE COMPANY  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 23 Reinsurance**

**A. Ceded Reinsurance Report**

Certain premiums and benefits are ceded to/assumed from other insurance companies under various reinsurance agreements. The ceded reinsurance agreements provide the Company with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations. The Company assumes certain premiums and benefits from other companies, subject to certain limitations or exceptions that may include a loss limit.

Under the terms of the Company's reinsurance agreement for commercial members, the reinsurer will reimburse the Company approximately 90% of the cost of each member's annual eligible services in excess of \$1,000,000 per member per contract year with no limitation for the years ended December 31, 2024.

The Company has a quota share reinsurance agreement covering employer-specific medical stop-loss business for administrative services only groups. Under the terms of the agreement, the reinsurer will reimburse the Company 75% of its net liability, not to exceed \$750,000 per covered member, for an aggregate reimbursement limit of \$1,000,000 per policy.

For the years ended December 31, 2025 and 2024, reinsurance premiums were \$968,000 and \$2,188,000 respectively, and are netted against premium revenue in the statutory statements of revenue and expenses. Collections on reinsurance recoverables during 2025 were \$352,000. There were no collections on reinsurance recoverables during 2024. There are no reinsurance recoverable on paid losses as of December 31, 2025 and 2024.

Effective October 1, 2024 the Company entered into a reinsurance agreement with the NWOBA MEWA (MEWA). Under this agreement the MEWA cedes 90% of the claims and the premiums, less a portion of premiums to cover stop loss premiums, claims adjustment expenses, general expense allowances, taxes, fees and regulatory assessments. The initial term is effective through December 31, 2025 and automatically renews for one year terms thereafter upon mutually agreed upon funding rates, general expense allowance rates, claims adjustment expense rates, stop loss rates and unless the Company or MEWA provides a written termination notice of 120 days.

The effect of this reinsurance agreement for years ended December 31, 2025 and 2024, are as follows:
