**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from these estimates.

**C. Accounting Policy**

**General**

The Company is a licensed Ohio credit union share guaranty corporation guaranteeing the share deposit accounts of its participating credit unions.

In 1993 the Company established a wholly-owned subsidiary, Excess Share Insurance Corporation (ESI), which is currently a licensed property and casualty insurance company in the states of Ohio, Alabama, Arkansas, Colorado, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Washington, Wisconsin and the District of Columbia. ESI is also approved to write surplus lines insurance in the states of Arizona, Virginia and Wyoming and surety lines in the states of Indiana and Ohio. For statutory reporting, the Company's investment in ESI \$ 33,730,871 and \$ 30,508,294 at December 31, 2025 and 2024, respectively) is carried at the statutory equity method of accounting.

Advertising and Marketing Costs are expensed as incurred.

**Participants' Capital Contributions**

Governing Ohio statute requires that participating credit unions insured under the Company's primary share insurance contract ("Primary-insureds") maintain a minimum capital contribution with the Company equal to 1% of each Primary-insured's year-end total share accounts, which is adjusted no less than annually. Effective December 31, 2010, the required capital contribution under the Company's primary insurance contract is 1.3% of each Primary-insured's total share accounts.

Participating credit unions insured under the Company's excess share insurance contract ("Excess-insureds") are required to maintain a capital contribution with the Company equal to 1% of the aggregate limits of liability, as defined by the Company's excess insurance contract with such credit unions. Capital contributions are adjusted periodically for changes in each Excess-insured's aggregate limits of liability. In addition to the capital contribution, the Company also assesses and earns a monthly risk-based premium, which is remitted by Excess-insureds in arrears after the end of each calendar quarter. Included in net premiums earned is \$533,156 and \$428,347 of such risk-based premiums for the year ended December 31, 2025 and 2024, respectively, which have been reduced by reinsurance premium of \$43,785 and \$48,730 for the years ended December 31, 2025 and 2024, respectively, to arrive at net premiums earned reported in the statutory statements of income.

All excess share insurance capital contributions are refundable no sooner than 90 days following the date of termination of insurance, to the extent such amounts are not needed to satisfy guaranty losses. At December 31, 2025 capital contributions to be refunded for terminated contracts were \$0 (\$0 at December 31, 2024) and are included in participants' capital contributions payable.

Participant's capital contributions that are receivable or payable as of December 31, 2025 and 2024 are presented on a gross basis in the accompanying financial statements. Included in participants' equity at December 31, 2025 and December 31, 2024 is a payable for capital contributions of Primary-insured of \$233,924 and \$5,123,084, respectively. The receivable and payable balances result from annual growth or shrinkage in participating credit union shares.

## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern (Continued)

Guaranty losses under the Company's primary insurance contracts are paid first from the Company's reserve for guaranty losses and then from current and retained earnings; thereafter, losses are charged pro rata to the primary capital contribution accounts. Guaranty losses under the Company's excess insurance contracts are paid first from the Company's reserve for guaranty losses and then from current and retained earnings up to an aggregate retention of \$12,000,000 after which the Company's reinsurance policy would provide aggregate coverage totaling \$12,000,000. Thereafter, losses are charged pro rata to the excess capital contribution accounts, to the extent of such balances.

The Company from time-to-time advances funds in connection with the liquidation or merger of, or capital assistance provided to, troubled credit unions in exchange for the right to receive future repayments. The Company expects to recover these amounts through repayment from the credit unions, the collection of loans, the sale of assets or the settlement of subrogated claims against third party insurers. For any such advances, generally only loans secured by the first mortgages are recorded as admitted assets in the accompanying statutory-basis financial statements, in an amount not to exceed the fair value of the underlying collateral. In addition, any unsecured advances that are collected within 90 days of year end are reported as admitted assets.

#### Special Premium Assessment

Although the Company does not normally charge a premium under its primary insurance program, the Company's governing Ohio statute and its primary insurance policy permit premiums to be assessed against Primary-insureds in order to ensure that the Company maintains a sufficient equity base for its insurance risk. The Company did not charge a special premium assessment in 2025 nor 2024.

#### Reinsurance

Effective February 1, 2025, the Company and ESI (the "Companies") entered into a renewal reinsurance agreement with an unauthorized reinsurer for a two-year term through February 1, 2027, to reinsure its excess share program. The agreement provides a single layer of aggregate reinsurance coverage of \$12,000,000, aggregate retention of \$12,000,000, with annual premiums of \$480,000 which are allocated between the Companies pro rata based on their monthly excess insurance in force. The prior agreement, which expired February 1, 2025, had substantially the same terms and conditions except for the insurance coverage and aggregate retention limit of \$9,000,000 and the annual premium of \$525,000.

#### Adoption of New Accounting Pronouncements

There were no new Statement of Statutory Accounting Principles ("SSAP") that were applicable to the Company or adopted in 2025 and 2024 and none that are effective for 2026 that would have a significant impact on the Company.

#### Liquidity Resources

The Company maintains adequate on-book and other sources of liquidity, such as cash, cash equivalents, short-term investments, investment maturities due within one year and lines of credit, in order to ensure it can meet cash needs for general expenditures, claims and other obligations as they become due.

In addition, the Company uses the following accounting policies:

#### (1) Cash, Cash Equivalents and Short-Term Investments

The Company considers cash equivalents to be money market accounts, other deposit accounts, investment securities purchased with maturities of three months or less and certificates of deposit with original maturities of less than one year. Substantially all cash and cash equivalents at December 31, 2025 and 2024 are on deposit with four financial institutions.

#### (2) Investments

Net investment income earned consists primarily of interest, dividends and rental income reduced by investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed, or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other-than-temporary to the extent necessary.

Investment grade non-loan-backed bonds with NAIC designations of 1 or 2 are stated at amortized value using the effective interest method. Non-investment grade non-loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value.

Gains or losses on investments sold are based on the specific identification method and are included in investment income. Investment purchases and sales are recorded on the trade date. Interest income is accrued when earned.

## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern (Continued)

The Company employs a systematic methodology that considers available evidence in evaluating potential other-than-temporary impairment of investments. In the event that the cost of an investment exceeds its fair value, the Company evaluates, among other factors, the magnitude and duration of the decline in fair value; the financial health of and business outlook for the issuer; changes to the debt ratings of the issuer, or specific security, by a rating agency; and the performance of the underlying assets. For debt investments, the ability and intent to hold the security, and the probability that the Company will be unable to collect all amounts due according to contractual terms of a debt security in effect at the date of acquisition is assessed. For equity securities, the Company evaluates impairment by considering a number of factors including the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their anticipated recovery periods, the current financial condition of the issuer and its future business prospects, and an assessment of the ability of the security's fair value to recover back to cost in the foreseeable future. Subsequent recoveries in fair value are not recognized in earnings but are recorded as unrealized gains in statutory surplus. Once a decline in fair value of an investment security is determined to be other than temporary, an impairment charge is recorded to net realized capital gains and losses, in the Statement of Income, and a new cost basis in the investment is established.

- (3) Common stocks, other than investments in stocks of subsidiaries and affiliates, are stated at fair value. Common stocks also include publicly traded equity securities as permitted by Ohio Revised Code Section 3925.08 in an aggregate amount not to exceed the Company's statutory unassigned surplus as reduced by its authorized control level risk-based capital.

Common stocks also include 2,977 shares of Federal Home Loan Bank (FHLB) common stock with a cost, par value and carrying value of \$297,700 at December 31, 2025 and at December 31, 2024. To maintain its membership, the Company is required to hold FHLB membership stock in an amount equal to 0.16% of the Company's admitted assets as determined under statutory accounting principles, which is adjusted annually by the FHLB. FHLB membership stock is restricted, can only be sold to the FHLB at par value, and requires a five-year notice by the Company to terminate membership and redeem the shares. The Company may borrow from the FHLB but must purchase additional shares of FHLB stock (activity stock) equal to 2% of borrowings. FHLB activity stock is redeemable at any time by the Company or by the FHLB, as the Company's FHLB borrowings are paid down and can only be sold to the FHLB. Due to the restrictions placed on transferability and the Company's determination that there is no known impairment as to the ultimate recoverability of the par value of FHLB stock, the Company's carrying value of its investment in FHLB stock is considered to approximate its fair value at December 31, 2025 and December 31, 2024.

- (4) Preferred stocks - Not Applicable
- (5) Mortgage loans - Not Applicable
- (6) Asset-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all such securities.
- (7) Common stocks include the Company's investment in its wholly owned subsidiary, Excess Share Insurance Corporation (ESI), and is carried at the value determined under the equity method of accounting, which management believes approximates market value. The estimated fair value of the investment in ESI is determined based on the Statement of Statutory Accounting Principles (SSAP) No. 97, Investments in Subsidiary, Controlled, and Affiliated Entities, a replacement of SSAP No. 88, and accordingly is carried at the subsidiary's underlying audited capital and surplus amounts as determined on a statutory basis.

A summary of ESI's key financial data (statutory-basis) as of December 31, 2025, and 2024 and for the years then ended, is shown below:

Statement of Income data:	2025	2024

- (9) Derivatives - Not Applicable
- (10) Investment income as a factor in the premium deficiency calculation - Not Applicable
- (11) Reserve for Guaranty Losses

The Company provides for guaranty losses incurred and reported, as well as losses incurred but not reported (IBNR), during the period such losses become evident based on analysis of insured credit unions' financial statements not less than quarterly, on-site examination results and other significant data. The Company maintains a reserve for guaranty losses account to cover its estimated ultimate unpaid liability for guaranty loss claims and claims adjustment expenses for reported and unreported guaranty claims. Recorded loss reserves represent management's best estimate at any given time and are reported net of actuarially determined anticipated salvage and subrogation which was \$5M at December 31, 2025 and \$4.9M at December 31, 2024. Loss reserves are not an exact calculation of liability but instead consist of complex estimates derived by the Company, generally utilizing a variety of reserve estimation techniques from numerous assumptions and expectations about future events, many of which are highly uncertain, such as estimates of claims severity, frequency of claims, inflation, claims handling, case reserving policies and procedures, underwriting and pricing policies, changes in the legal and regulatory environment and the elapsed time between the occurrence of an insured event and the time of its ultimate settlement. Many of these uncertainties are not precisely quantifiable and require significant judgment by the Company.

**Notes to the Financial Statements**

**1. Summary of Significant Accounting Policies and Going Concern (Continued)**

In light of the uncertainties associated with establishing the Company’s estimates and making the assumptions necessary to establish loss reserves, changes in loss reserve estimates are reviewed on a regular and ongoing basis as experience develops and as claims are reported and settled. If estimated loss reserves are insufficient for any reason, the required increase in loss reserves would be recorded as a charge against the Company’s earnings for the period in which loss reserves are determined to be insufficient. In addition, Ohio law requires that not less than every three years, an actuarial capital adequacy study be conducted and, separately, that an annual actuarial study be performed of the Company’s loss reserves. To assist management with its determination of loss reserves, the Company utilizes the services of an independent actuary who has reviewed the assumptions and methods used by the Company in determining its reserves for guaranty losses as of December 31, 2025 and 2024. The Company does not have a controlling financial interest in any member credit unions. Management believes that the Company has recorded sufficient reserves for losses.

In addition, the Company provides for anticipated losses under guarantee commitments associated with merged and liquidated credit unions and special assistance agreements with participating credit unions. Guarantee commitments generally involve loss-sharing arrangements between the Company and the participating or continuing credit union and only result in losses to the Company after a predetermined aggregate loss amount, as prescribed in the guarantee commitment, is absorbed by the participating or continuing credit union (“loss retention”) during the commitment period. Reserves for guaranty losses on commitments are determined based on estimated losses in excess of the credit union’s loss retention under guarantee commitments. At December 31, 2025 and 2024, the Company has no outstanding guarantee commitments and has recorded no loss reserves for guarantee commitments.

E. Operating loss and tax credit carryforwards

- (1) At December 31, 2025 and 2024, the Company had no income tax that is available for recoupment in the event of future net loss or capital loss carryforwards.
- (2) Income tax expense available for recoupment

As a tax-exempt organization, the Company is subject to income tax on activities that generate net income unrelated to its tax-exempt purpose of providing primary share insurance to its members. At December 31, 2025 and 2024, the Company had UBIT loss carryforwards of approximately \$16,100,522 and \$17,463,012, respectively, that are available to offset future unrelated business income. The year of origin and expiration of the UBIT loss carryforwards are as follows:

Origination Year	Expiration Year	2025 Amount	2024 Amount
2007	2027	\$ -	\$ 443,545

### 9. Income Taxes (Continued)

F. Consolidated federal income tax return

(1) The Company's subsidiary is a taxable corporation, and the Company is organized as a tax-exempt organization under IRS Code Section 501(c)(6). Accordingly, the Company and its subsidiary file separate tax returns.

(2) Method of allocation - Not Applicable

G. Federal or foreign income tax loss contingencies

At December 31, 2025, the Company had no tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

H. Repatriation Transition Tax (RTT) - Not Applicable

I. Alternative Minimum Tax (AMT) Credit - Not Applicable

### 10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. The Company owns one insurance SCA entity (Excess Share Insurance Corporation/ESI) that is carried at audited statutory equity value. ESI follows no state prescribed or permitted practices that depart from NAIC statutory accounting practices and procedures (NAIC SAP).

B. The Company has entered into a cost sharing services agreement with ESI and their subsidiary through which the Company provides various management services and the use of equipment and facilities to ESI for its operations. The agreement is renewable annually and may be terminated by either party with a 90-day notice. ESI pays the Company a monthly fee of \$321,500 (\$289,917 in 2024) under the agreement with an annual "true-up" adjustment to reflect the actual costs of services provided by the Company to ESI. Total management fees under this agreement were \$4,100,000 and \$3,598,790 in 2025 and 2024, respectively.

The Company has entered into a line-of-credit agreement with ESI whereby ESI can borrow, on a demand basis, up to \$75,000,000 at an interest rate equal to the prevailing prime rate. Borrowings under the line must be collateralized by investment securities and other assets. The arrangement is subject to annual renewal by both parties. In accordance with the terms of the line-of-credit agreement, ESI pays the Company an annual commitment fee, which was \$187,500 in 2025 and \$187,500 in 2024.

The Company has entered into a guaranty agreement dated February 9, 1994, and amended January 1, 2001, with the Ohio Department of Insurance whereby the Company guarantees, up to a maximum aggregate commitment of \$7,000,000, that the capital and surplus of ESI will be maintained at the appropriate statutory level of at least \$5,000,000.

The Company and ESI have an agreement which provides that, in the event ESI incurs an insuring loss, the Company will make available to ESI the premium deposits the company holds for its excess share business \$8,080,000 at December 31, 2025 in order that ESI can meet its obligations under its excess insurance contracts.

The maximum dividend which can be paid by insurers domiciled in the state of Ohio to shareholders without prior approval of the Ohio Superintendent of Insurance is limited to the greater of the net income of the preceding calendar year or 10% of capital and surplus as of the immediately preceding year-end. In 2025, the maximum dividend that can be paid by ESI to the Company without approval is \$33,965,608. The Company and ESI have no plans for ESI to pay a dividend in the foreseeable future.

C. Transactions with related party who are not reported on Schedule Y - Not Applicable

D. Amounts due from or to related parties are settled monthly by cash transfer or offset. Net amount receivable from ESI was \$418,864 at December 31, 2025 and \$815,002 at December 31, 2024.

**Notes to the Financial Statements**

**11. Debt**

A. Under three separate unused committed line of credit arrangements with three third-party financial institutions, the Company may borrow on a demand basis up to an aggregate of \$100,000,000 at an interest rate generally equal to the Secured Overnight Financing (SOFR) rate. Borrowings under the lines must be collateralized by investment securities and other collateral with a market value, which varies by agreement, of 103% to 120% of the amount borrowed. The Company pays annual commitment fees aggregating \$95,000 under these arrangements and one arrangement requires the Company to maintain \$1,000,000 on deposit with the financial institution. The arrangements were renewed by the Company and the financial institutions on May 29, 2025 (\$70,000,000 with FHLB) and May 15, 2025 (\$20,000,000 with US Bank) and are subject to annual renewal procedures. A new LOC was opened on July 14, 2025, with Huntington (\$10,000,000) which will also be subject to annual renewal procedures. The Company had no outstanding borrowings at any time under any of its committed lines of credit through December 31, 2025 nor during 2024.

B. FHLB (Federal Home Loan Bank) Agreements

(1) FHLB (Federal Home Loan Bank) Advised Line of Credit Agreement

The Company is a member of the Federal Home Loan Bank of Cincinnati (FHLB) and had a total stock investment of \$297,700 (\$272,528 membership stock and \$25,172 excess stock) as of December 31, 2025. In addition to the \$70,000,000 FHLB committed line, in May 2025, the FHLB approved a one-year renewal line capacity for the Company's \$200 million "advised" line of credit, which has been renewed and expires May 29, 2026. The interest rate on either of the FHLB lines varies depending upon the advance maturity term selected by the Company and can be either fixed or variable rate. Availability of the FHLB advised line, or a portion thereof, is contingent upon the Company maintaining sufficient pledged collateral at the FHLB consisting of investment securities and other collateral with a market value of up to approximately 97% of US Government Agency securities pledged. At December 31, 2025, the Company has approximately \$49.6million of US Government Agency securities pledged with the FHLB. The Company can also pledge qualifying mortgage loans toward FHLB borrowings, allowing the Company to borrow approximately 75% of the outstanding qualifying mortgage loans. The Company held \$21.1 million of commercial backed mortgage loans at December 31, 2025. The Company is required to purchase additional FHLB stock equal to 2% of any borrowed funds. The Company had no FHLB borrowings outstanding at December 31, 2025 or December 31, 2024.

## Notes to the Financial Statements

### 20. Fair Value Measurements

#### A. Fair Value Measurement

With regard to the Company's financial assets that are disclosed at a fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The ASC and SSAP No. 100, Fair Value Measurement, establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that most observable inputs be used when available. Observable inputs are obtained from independent sources and can be validated by a third party, whereas, unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 - Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.
- Level 2 – Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Reclassification of certain financial instruments may occur when observability of inputs change. There were no transfers between assets carried at fair value within Level 1 and Level 2 of the fair value hierarchy through December 31, 2025 or during the year ended December 31, 2024. There were no purchases, sales, transfers into or transfers out of assets carried at fair value and classified within Level 3 of the fair value hierarchy through December 31, 2025 or during the year ended December 31, 2024.

### 25. Changes in Incurred Losses and Loss Adjustment Expenses

#### A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years

The Company writes only one line of business, "Other" (with two products written solely to credit unions: primary share insurance and excess share insurance) and sets loss reserves on a prudent basis for potential claims events. Primary insurance claims can involve specifically identified claims events and other events incurred but not reported (IBNR). The Company also sets aside unallocated loss reserves for its primary insurance book of business so that aggregate loss reserves remain within an actuarially accepted range. Excess insurance claims events are infrequent (rare) but potentially severe and as a result, upon consultation with the Company's independent actuary, the Company provides annual loss reserve additions so that cumulative loss reserves are within an actuarially accepted range.

Although the Company does not normally charge a premium under its primary insurance program, the Company's governing Ohio statute and its primary insurance policy permit premiums to be assessed against Primary-insureds in order to ensure that the Company maintains a sufficient equity base for its insurance risk.

The Company did not charge a special premium assessment in 2025 nor 2024.

Since the Company has no specific excess insurance loss events identified at December 31, 2025, for which a loss reserve would normally be established, all of the Company's loss reserves related to excess insurance and its unallocated primary insurance loss reserves related to excess insurance and its unallocated primary insurance loss reserves are treated as unallocated IBNR loss reserves. For purposes of Schedule P, in any given year the cumulative unallocated IBNR loss reserves held are considered to have occurred as follows: (1) 60% in current year; (2) 30% in the previous year; and (3) 10% in the second previous year and have been allocated as such in Schedule P, which is comparable to methods used by other insurance companies with infrequent claims events. Since claims events are rare (infrequent but potentially severe), the typical year shows favorable development.
