NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of The Lafayette Life Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Department has the right to permit other specific practices that deviate from prescribed practices. There are no differences between the Company's net income and capital and surplus following NAIC SAP or practices prescribed and permitted by the state of Ohio.

Ohio Administrative Code 3901-1-67, *Alternative derivative and reserve accounting practices*, allows the Company to follow a prescribed practice related to its derivative instruments purchased to hedge indexed products. The Company elected to adopt this practice effective January 1, 2021. In accordance with the practice, the Company has included unrealized and realized capital gains (losses) associated with these derivative instruments in net investment income. Only unrealized capital gains (losses) included in net investment income had an impact on statutory net income when compared to what would be reported under NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Amounts received on deposit-type contracts are entered directly as a liability when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at either amortized cost using the interest method or the lower of amortized cost or fair market value. All SVO-Identified securities are reported at fair value. The Company has not reacquired any SVO-Identified securities during the reporting period.
- (3) Unaffiliated common stocks are stated at fair market value, except for Federal Home Loan Bank (FHLB) stock, which is carried at cost, adjusted for stock dividends, and is restricted. Common stocks of non-life subsidiaries and non-life affiliates in which the Company has an interest of 10% or more are carried on the GAAP equity basis.
- (4) Preferred stocks are stated at either cost or the lower of cost or fair market value.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE The Lafayette Life Insurance Company

- (5) Mortgage loans on real estate are stated at the aggregate unpaid principal balance plus unamortized premium less unaccrued discount.
- (6) Loan-backed and structured securities are stated at amortized cost, except those with an initial NAIC designation of 6, which are stated at the lower of amortized cost or fair value. Loan-backed and structured securities with an initial NAIC designation of 6 could have a final designation of 1 through 5 as determined by the SVO financial modeling process. The retrospective adjustment method is used to determine amortized cost for all loan-backed and structured securities, except for (1) those which an other-than-temporary impairment has been recognized or (2) less than high quality securities (rating of A or lower) which use the prospective adjustment method to determine amortized cost.
- (7) The Company owns 100% of the capital stock of its non-life insurance subsidiaries, which are stated at GAAP equity.
- (8) The Company has investments in joint ventures organized as limited partnerships or limited liability companies. The Company carries these interests based on the underlying GAAP equity of the investee. Undistributed earnings allocated to the Company are reported in the change in net unrealized capital gains or losses. Distributions from earnings of the entity are reported as net investment income when received. Because of the indirect nature of these investments, there is an inherent reduction in transparency and liquidity and increased complexity in valuing the underlying investments. As a result, these investments are actively managed by Company management via detailed evaluation of the investment performance relative to risk.
- (9) The Company utilizes customized call options to hedge the S&P 500 index and Goldman Sachs Multi-Asset Class index exposure embedded in equity indexed annuities and universal life policies. The Company purchases and writes call options to correlate with changes in the annuity and universal life features due to movements in the S&P 500 and Goldman Sachs Multi-Asset Class index. At the beginning of these contracts, a premium is either paid or received for transferring the related risk. The company retains basis risk and risk associated with actual versus expected assumptions for mortality and lapse rates. The call options are not designated as a hedge for accounting purposes and are carried at fair value on the balance sheet. Pursuant to the prescribed practice detailed in Note 1A, both the change in unrealized gains and losses due to change in fair value as well as the related gains and losses from terminations or expirations are recorded in net investment income.
- (10) Anticipated investment income is not a factor in calculating deficiency reserves.
- (11) Loss liabilities for accident and health contracts are based on statutory standard tables for long-term disability coverages and historical company experience for other accident and health.
- (12) The Company does not own capitalizable assets. Therefore, the Company does not have a capitalization policy.
- (13) The Company has no pharmaceutical rebate receivables on its books during the statement periods.
- (14) The Company monitors investments to determine if there has been an other-than-temporary decline in fair value. Factors management considers for each identified security include the following:
 - the length of time and the extent to which the fair value is below the book/adjusted carry value;
 - the financial condition and near term prospects of the issuer, including specific events that may affect its operations;
 - for equity securities and debt securities with credit related declines in fair value, the Company’s intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
 - for debt securities with interest related declines in fair value, the Company’s intent to sell the security before recovery of its book/adjusted carry value;
 - for loan-backed securities, the Company’s intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
 - for loan-backed securities, the Company’s intent to sell the security before recovery of its book/adjusted carry value.

If the decline is judged to be other-than-temporary, an impairment charge is recorded as a net realized capital loss in the period the determination is made.

D. Going Concern. Management has not raised any doubts about the entity's ability to continue as a going concern.

(2) The Company had no other-than-temporary impairments on loan-backed and structured securities for the year ended December 31, 2025, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE The Lafayette Life Insurance Company

- (3) The following is a list of each loan-backed and structured security with a recognized other-than-temporary impairment, for the year ended December 31, 2023, where the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

- (4) The following is an aggregate total of all impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss, including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains as of December 31, 2025:

a. The aggregate amount of unrealized losses:

| | |
|------------------------|------------|
| 1. Less than 12 Months | 325,469 |
| 2. 12 Months or Longer | 25,907,502 |

b. The aggregate related fair value of securities with unrealized losses:

| | |
|------------------------|-------------|
| 1. Less than 12 Months | 76,522,931 |
| 2. 12 Months or Longer | 351,224,243 |

- (5) See Note 1C (14) for the factors management considers when evaluating for an other-than-temporary decline in fair value.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

At December 31, 2025, the Company has loaned \$162.0 million (fair value) of various debt securities, preferred stocks and common stocks as part of a securities lending program administered by Mitsubishi UFJ Trust and Banking Corporation. At December 31, 2024, the Company has loaned \$113.1 million (fair value). The Company maintains effective control over all loaned securities and, therefore, continues to report such securities as invested assets in the balance sheets.

- (1) The Company requires at the initial transaction that the fair value of the cash collateral received must be equal to 102% of the fair value of the loaned securities. The Company monitors the ratio of the fair value of the collateral to loaned securities to ensure it does not fall below 100%. If the fair value of the collateral falls below 100% of the fair value of the securities loaned, the Company non-admits that portion of the loaned security. At December 31, 2025 and 2024, the Company did not non-admit any portion of the loaned securities.

- (2) Not Applicable.

- (3) Collateral Received

a. Aggregate Amount Collateral Received

- b. The fair value of that collateral and of the portion of that collateral that it has sold or repledged is \$165.3 million.

- c. The Company receives cash collateral in an amount in excess of the fair value of the securities lent. The Company reinvests the cash collateral primarily in investment-grade debt securities and cash equivalents.

- (4) The Company reports all collateral on the balance sheet with an offsetting liability recognized for the obligation to return the collateral. Collateral for the securities lending program is either managed by an affiliated agent of the Company or is managed by Mitsubishi UFJ Trust and Banking Corporation, an unaffiliated agent. Collateral managed by an affiliated agent is invested primarily in investment-grade debt securities and cash equivalents and is included in the applicable amount on the balance sheet because the funds are available for the general use of the Company. Collateral managed by an unaffiliated agent is invested in cash equivalents and is included in securities lending reinvested collateral assets on the balance sheet at December 31, 2025 and 2024.

8. Derivative Instruments

The Company has entered into call options to hedge the S&P 500 index, Goldman Sachs Multi-Asset Class index, and the J.P. Morgan Strategic Balanced Index. The discussion of the accounting policies, risks, and objectives are in Note 1C. The net gain recognized in net investment income during the reporting period related to the change in value of the call options was \$11,344,901. The Company has entered into a collateral agreement with the counterparty whereby under certain conditions the counterparty is required to post assets on the Company's behalf. The posted amount is equal to the difference between the net positive fair value of the option and the agreed upon thresholds that are based on the credit rating of the counterparty. Inversely, if the net fair value of the option is negative, then the Company may be required to post assets instead using similar thresholds. At December 31, 2025, \$19,250,000 cash collateral has been posted to the Company.

9. Income Taxes

E. At December 31, 2025, the Company had \$0 of net operating loss carryforwards, net capital loss carryforwards and tax credit carryforwards.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future capital losses:

| | |
|------|------|
| 2025 | \$ 0 |
| 2024 | \$ 0 |
| 2023 | \$ 0 |

There were no deposits admitted under Section 6603 of the Internal Revenue Service Code as of December 31, 2025 and 2024.

F. The Company's federal income tax return is consolidated with the following entities:

The Western and Southern Life Insurance Company
 Western & Southern Mutual Holding Company
 Western & Southern Financial Group, Inc.
 Western-Southern Life Assurance Company and Subsidiaries
 Columbus Life Insurance Company
 Integrity Life Insurance Company
 The Lafayette Life Insurance Company and Subsidiary
 Gerber Life Insurance Company
 Western-Southern Agency, Inc.
 Eagle Realty Investments, Inc.
 Fort Washington Investment Advisors, Inc.
 Fabric Technologies, Inc.

The Western and Southern Life Insurance Company (Western and Southern), affiliate of the Company, files a consolidated income tax return with its eligible affiliates, including the Company. The provision for federal income taxes is allocated to the Company using a separate return method based upon a written tax sharing agreement. Under the agreement, the benefits from losses of affiliates are retained by the affiliate companies. Western and Southern pays all federal income taxes due for all members in the consolidated return. Western and Southern then immediately charges or reimburses, as the case may be, these members an amount consistent with the method described in the tax sharing agreement. At December 31, 2025, the Company has a receivable/(payable) of \$(7,077,535).

The tax years 2014 through 2017 and 2022 through 2025 remain subject to examination by major tax jurisdictions.

The Inflation Reduction Act was enacted on August 16, 2022, and included a provision for a new Corporate Alternative Minimum Tax (CAMT), effective in 2023, that is based on the adjusted financial statement income set forth on the applicable financial statement of an "applicable corporation." The controlled group of corporations of which the reporting entity is a member has determined that it is not an "applicable corporation" for purposes of CAMT during the reporting period, and is not liable for the CAMT.

The One Big Beautiful Bill Act (OBBBA) was signed into law on July 4, 2025, which includes changes to the Internal Revenue Code. The OBBBA did not have a significant impact on the Company's financial statements.

G. SSAP No. 5R, Liabilities, Contingencies and Impairments of Assets. None.

H. Repatriation Transition Tax (RTT). Not applicable.

* Transfers out of Level 3 are due to changes in the price source.

- (3) The Company’s policy is to recognize transfers in and transfers out of levels at the beginning of each quarterly reporting period.
- (4) Investments in Level 2 include NAIC 6 corporate bonds and debt securities that do not qualify as bonds. The fair value of these instruments have been determined through the use of third-party pricing services utilizing market observable inputs.

The fair value of preferred stock included in Level 2 has been determined by utilizing market observable inputs from third-party pricing services.

Derivative instruments included in Level 2 consist of options. The fair values of these instruments have been determined through the use of third-party pricing services utilizing market observable inputs.

The derivatives in Level 3 consist of options on the Goldman Sachs Multi-Asset Class index and are valued using a valuation model and inputs from outside sources. The models include the Black-Scholes-Merton model for point to point options, spreads and average (SPAV) algorithm model for monthly average options and a Monte Carlo model monthly cap (cliquet) options. The SPAV model is provided by Financial Engineering Associates of Berkeley, California.

The assumptions used to determine the fair value of derivatives in Level 3 are derived from outside sources. Bloomberg Investment Services supplies the S&P Index level, the dividend yield and the London Interbank Offering (interest) Rates (LIBOR). Investment banks supply estimates of the implied volatility surface. Other than interpolation of the interest rates and implied volatility rates all inputs are provided by the outside sources.

The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third-parties; however, we do analyze the third-party pricing services' valuation methodologies and related inputs and perform additional evaluation to determine the appropriate level within the fair value hierarchy. Care should be exercised in deriving conclusions about the Company's business, its value or financial position based on the fair value information of financial instruments presented below.

Debt and Equity Securities

The fair values of actively traded debt securities and asset/mortgage-backed securities have been determined through the use of third-party pricing services utilizing market observable inputs. Less liquid private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

The fair values of actively traded equity securities and exchange traded funds (including exchange traded funds with debt like characteristics) have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds.

Mortgage Loans

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

Cash, Cash Equivalents and Short-Term Investments

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices.

Other Invested Assets

Other invested assets includes surplus notes, fixed income residual tranches, and debt securities that do not qualify as a bond. The fair values of these assets have been determined using the same methodologies as debt and equity securities. For investments utilizing NAV, see Note 20E for a description.

Derivative Instruments

The fair values of free-standing derivative instruments, primarily call options, are determined through the use of third-party pricing services utilizing market observable inputs or valuation models incorporating significant unobservable inputs, including projected discounted cash flows, applicable swap curves and implied volatilities.

Life and Annuity Reserves for Investment-type Contracts and Deposit Fund Liabilities and Fixed-Indexed Annuity Contracts

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows. Present values reflect the Company's margin for uncertainty of the timing of liability cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances.

Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company's overall management of interest rate risk.

The fair value of liabilities for fixed indexed annuities is based on embedded derivatives that have been bifurcated from the host contract. The fair value of embedded derivatives is calculated based on actuarial and capital market assumptions reflecting the projected cash flows over the life of the contract and incorporating expected policyholder behavior. The host is adjusted for acquisition costs with revised accretion rates.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE The Lafayette Life Insurance Company

Cash Collateral Payable

The payable represents the obligation to return cash collateral the Company has received relating to derivative instruments. The fair value is based upon the stated amount.

Securities Lending Liability

The liability represents the Company’s obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.

- D. Not applicable.
- E. Investments that use a net asset value (NAV) as a practical expedient consist mainly of fixed income residual tranches. These residual tranches represent equity interests in feeder funds and is stapled to fixed income notes. These investments have to be sold in the same proportion with the note. The NAV for these investments are equal to the fair value reported on Schedule BA Part 1. The Company's unfunded commitment for these investments are \$7.6 million.

21. Other Items

- A. Extraordinary Items. None.
- B. Troubled Debt Restructuring. None.
- C. Other Disclosures and Unusual Items. None.
- D. Business Interruption Insurance Recoveries. None.
- E. State and Federal Tax Credits. None.
- F. Subprime Mortgage Related Risk Exposure

The Company does not have any direct investments in subprime mortgage loans. The Company does not have any equity investments in subsidiary, controlled or affiliated entities with significant subprime mortgage related risk exposure. This disclosure does not include an evaluation of mortgage-backed debt securities commonly referred to as Alt A because these debt securities do not generally share all characteristics of subprime mortgage related risk.

The Company invests directly in certain debt securities which are considered to have subprime mortgage related risk. The Company considers the following general characteristics typical of its debt securities with subprime mortgage exposure:

- Underlying borrowers with low credit ratings (FICO score generally lower than 670);
- Underlying loans with interest rates above rates available to prime borrowers;
- Underlying loans with generally higher initial loan-to-value ratios;
- Underlying loans with generally higher concentration of second liens;
- Underlying loans with generally higher concentration of manufactured housing;
- Securities with generally higher spread between collateral interest received and interest payments to investors;
- Securities with generally higher level of overcollateralization.

Investments in debt securities with subprime mortgage exposure, similar to other types of investments, can subject an investor to unrealized losses due to changing interest rates or general credit spread widening. Similarly, an investor is exposed to realized losses if actual cash flow of the underlying mortgages is worse than expected due to higher defaults which can result in principal loss for the investor.

In order to manage subprime mortgage related risk the Company uses proprietary risk models to project probability of default and recoveries of underlying collateral, proprietary surveillance systems to monitor credit performance, exposure analysis by risk category and maintenance of a watchlist for higher risk investments.

The following table shows our investments in debt securities with subprime mortgage exposure based on the definition above:

(3) Direct exposure through other investments.

The percentage of book value of these debt securities that have underlying loans with primarily variable interest rates is 0.00%.

G. Retained Assets

- (1) The Company offered retained asset accounts as an optional form of settlement for life insurance policy proceeds in 2025. The retained asset account option provided to beneficiaries was the default method for satisfying life insurance claims in 2025 in states that did not require policyholders to explicitly select a settlement option. In states that require policyholders to explicitly select a settlement option, state regulations are adhered to and the retained asset account option does not serve as the default option. The Company’s retained asset accounts are serviced by an unaffiliated bank, with the assets and liabilities related to these accounts remaining on the Company’s financial statements. These retained asset accounts are included in the liability for deposit-type contracts.

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE The Lafayette Life Insurance Company

The interest rate paid to retained asset accountholders was 0.5% for the first eight months of 2025 and was then increased to 0.75% for the remainder of the year. The accountholder is not charged for routine administrative fees associated with the retained asset account. The accountholder is responsible for fees associated with insufficient funds drafts on the account and stop payments on drafts on the account.

(2) The number and balance of retained asset accounts in force as of December 31, 2025 and December 31, 2024 are as follows:

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE The Lafayette Life Insurance Company

27. Structured Settlements. None.

28. Health Care Receivables. None.

29. Participating Policies.

For the year ended 2025, the relative percentage of participating insurance is 4.4% based upon in force amounts; for 2024, the percentage was 4.8%. Reference should be made to the Exhibit of Life Insurance - Classification of amount of Insurance by Participating Status.

The Company accounts for its policyholder dividends on an accrual basis consistent with SSAP 51 and 54, which includes dividends due and unpaid, amounts apportioned for payment in the following 12 months with the assumption that all policies remain in force at their current face amount, and dividends left on deposit to accumulate interest. For participating business, the total amounts incurred were \$10,642,868 and \$11,080,907 for 2025 and 2024, respectively.

There are no other amounts of additional income allocated to participating policies in the financial statements.

30. Premium Deficiency Reserves. None.

31. Reserves for Life Contracts and Annuity Contracts

1. The Company waives deduction of deferred fractional premiums upon death of insured and returns any portion of the final premium beyond the date of death. Surrender values are not promised in excess of the legally computed reserves.
2. Policies issued prior to January 1, 1948, for substandard lives are charged the gross premiums for a rated age. Mean reserves are determined by computing the regular mean reserves at the rated age. Policies issued after January 1, 1948, for substandard lives are charged an extra premium plus the regular gross premium for the true age. Mean reserves are determined by computing the regular mean reserve at the true age and holding an additional one-half (1/2) of the extra premium charge for the year.
3. As of December 31, 2025, the Company had \$108,466,644 of insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the state of Ohio. Reserves to cover this insurance totaled \$616,114 at year-end and are reported in Exhibit 5, Life Insurance and Annuities sections.
4. The tabular interest, the tabular less actual reserve released, and the tabular cost have been determined by formula as described in the instructions.
5. The determination of tabular interest on funds not involving life has been determined by formula as described in the instructions.
6. The details for other changes: None.
