A. Accounting Practices

The financial statements of The Western and Southern Life Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Department has the right to permit other specific practices that deviate from prescribed practices. There are no differences between the Company’s net income and capital and surplus following NAIC SAP or practices prescribed and permitted by the state of Ohio.

B. Use of Estimates in the Preparation of the Financial Statements

No Change.

C. Accounting Policy

- (2) The Company has not reacquired any SVO Identified Bonds during the reporting period.
- (6) Loan-backed and structured securities are stated at amortized cost, except those with an initial NAIC designation of 6, which are stated at the lower of amortized cost or fair value. Loan-backed and structured securities with an initial NAIC designation of 6 could have a final designation of 1 through 5 as determined by the SVO financial modeling process. The retrospective adjustment method is used to determine amortized cost for all loan-backed and structured securities, except for (1) those which an other-than-temporary impairment has been recognized or (2) less than high quality securities (rating of A or lower) which use the prospective adjustment method to determine amortized cost.

D. Going Concern. Management has not raised any doubts about the entity's ability to continue as a going concern.

2. Accounting Changes and Correction of Errors

The Company did not have any accounting changes in 2025.

3. Business Combinations and Goodwill. No Change.

4. Discontinued Operations. No Change.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans. No Change.

B. Debt Restructuring. None.

D. Loan-Backed Securities

- (1) Prepayment assumptions are derived from Bloomberg and broker dealer prepayment models or from empirical data.
- (2) The Company had no other-than-temporary impairments on loan-backed and structured securities for the period ended March 31, 2025, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

STATEMENT AS OF MARCH 31, 2025 OF THE The Western and Southern Life Insurance Company

- (3) The Company had no loan-backed and structured securities with a recognized other-than-temporary impairment, for the period ended March 31, 2025, where the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

1	2	3	4	5	6	7
CUSIP	Book/Adjusted Carrying Value Amortized Cost Before Current Period OTTI	Present Value of Projected Cash Flows	Recognized Other-Than-Temporary Impairment	Amortized Cost After Other-Than-Temporary Impairment	Fair Value at time of OTTI	Date of Financial Statement Where Reported
Total	XXX	XXX	—	XXX	XXX	XXX

- (4) The following is an aggregate total of all impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss, including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains as of March 31, 2025:

- a. The aggregate amount of unrealized losses:
- | | |
|------------------------|------------|
| 1. Less than 12 Months | 128,343 |
| 2. 12 Months or Longer | 14,442,149 |
- b. The aggregate related fair value of securities with unrealized losses:
- | | |
|------------------------|-------------|
| 1. Less than 12 Months | 4,168,141 |
| 2. 12 Months or Longer | 141,459,279 |

- (5) The Company monitors investments to determine if there has been an other-than temporary decline in fair value. Factors management considers for each identified security include the following:
- a. the length of time and the extent to which the fair value is below the book/adjusted carry value;
 - b. the financial condition and near term prospects of the issuer, including specific events that may affect its operations;
 - c. for equity securities and debt securities with credit related declines in fair value, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
 - d. for debt securities with interest related declines in fair value, the Company's intent to sell the security before recovery of its book/adjusted carry value;
 - e. for loan-backed securities, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
 - f. for loan-backed securities, the Company's intent to sell the security before recovery of its book/adjusted carry value.

If the decline is judged to be other-than-temporary, an impairment charge is recorded as a net realized capital loss in the period the determination is made.

Securities lending liability	(138,908,084)	(138,908,084)	—	(138,908,084)	—	—	—

The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third-parties; however, we do analyze the third-party pricing services’ valuation methodologies and related inputs and perform additional evaluation to determine the appropriate level within the fair value hierarchy. Care should be exercised in deriving

conclusions about the Company’s business, its value or financial position based on the fair value information of financial instruments presented below.

Debt and Equity Securities

The fair values of actively traded debt securities and asset/mortgage-backed securities have been determined through the use of third-party pricing services utilizing market observable inputs. Less liquid private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

The fair values of actively traded equity securities and exchange traded funds (including exchange traded funds with debt like characteristics) have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds. The fair values of preferred stock and common stock included in Level 3 have been determined by using broker quotes or recent financing for similar securities.

Mortgage Loans

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

Cash, Cash Equivalents and Short-Term Investments

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices.

Other Invested Assets

Other invested assets includes surplus notes and fixed income residual tranches. The fair values of these assets have been determined using the same methodologies as debt and equity securities.

Assets Held in Separate Accounts

Assets held in separate accounts include debt securities, equity securities, mutual funds, surplus notes, private equity, and private debt fund investments. The fair values of these assets have been determined using the same methodologies as similar assets held in the general account. The fair values of the private real estate funds included in Level 3 have been determined by significant unobservable inputs. For investments utilizing NAV, see Note 20E for a description.

Life and Annuity Reserves for Investment-type Contracts and Deposit Fund Liabilities

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows. Present values reflect the Company’s margin for uncertainty of the timing of liability cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances.

Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company’s overall management of interest rate risk.

Securities Lending Liability

The liability represents the Company’s obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.

- D. Not applicable.
- E. Investments that use a net asset value (NAV) as a practical expedient consist mainly of equity interest in limited partnerships and limited liability companies in the separate account. These investments contain fixed income and common stock characteristics. The interests in these partnerships can be sold or transferred with prior consent from the general partner. The NAV for these investments is equal to the fair value reported on Schedule BA Part 1. The average remaining life of the investments is 14.7 years. The Company's unfunded commitment for these investments is \$42.9 million.

A collective trust in the separate account utilizing NAV is primarily investing in domestic fixed income securities. Shares in the trust can be redeemed at their net asset value. The NAV for this investment is \$11.60.

The Company does not intend to sell any investments utilizing NAV.
