20. Fair Value Measurements (Continued)

The Company uses a hierarchical framework for inputs to determine fair value which prioritizes the use of observable inputs and minimizes the use of unobservable inputs. Additionally, the Company categorizes fair value measurements based on the lowest level of input that is considered to be significant to the entire measurement. Assets measured and reported at fair value are categorized as follows:

(1) Fair value measurements at reporting date

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
a. Assets at fair value					
Cash Equivalents - Exempt Money Market Mutual Funds	\$ 5,643	\$	\$	\$	\$ 5,643
Total assets at fair value/NAV	\$ 5,643	\$	\$	\$	\$ 5,643
b. Liabilities at fair value					
Total liabilities at fair value	\$	\$	\$	\$	\$

Level 1: Unadjusted quoted prices for identical assets or liabilities in an active market.
Level 2: Observable inputs other than Level 1: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.
Level 3: Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Unobservable inputs reflect the Company's estimates of the assumptions that market participants would use in valuing the assets and liabilities.

(2) Fair value measurements in Level 3 of the fair value hierarchy - None

(3) Policy on transfers into and out of Level 3 - None

(4) Inputs and techniques used for Level 2 and Level 3 fair values - None

(5) Derivatives - Not Applicable

B. Other Fair Value Disclosures - Not Applicable

C. Fair Values for All Financial Instruments by Level 1, 2 and 3

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds	\$ 2,940,495	\$ 3,248,767	\$ 1,166,245	\$ 1,774,250	\$	\$	\$
Cash Equivalents	5,643	5,643	5,643				

The Company uses third party valuation service providers which are leading, nationally recognized providers of market data and analytics and utilize proprietary models that vary by asset class and incorporate available trade, bid and other market information when developing valuation information in the form of a single fair value for individual bond or equity security. The inputs used by the valuation service providers include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, liquidity spreads, sector groupings and benchmarking of like securities. Credit and liquidity spreads are typically implied from completed transactions and transactions of comparable securities. Valuation service providers also use proprietary discounted cash flow models that are widely accepted in the financial services industry and similar to those used by other market participants to value the same financial instruments. The valuation models take into account, among other things, market observable information as of the measurement date, as well as the specific attributes of the security being valued including its term, interest rate, credit rating, industry sector, and where applicable, collateral quality and other issue or issuer specific information. The Company classifies investments in US Treasury bonds, actively traded exchange traded funds, mutual funds, and public common stock as Level 1 securities. The Company classifies investments in public corporate bonds, states and political subdivisions bonds, collateralized loan obligations, mortgage-backed securities, convertible bonds, majority of preferred stocks and certain private placement bonds and common stock as Level 2 securities.

The Company classifies investments as Level 3 in the fair value hierarchy when specific inputs significant to the fair value estimation models are not market observable. Significant unobservable inputs used include credit profile, credit spread, and resulting market yield, which involve considerable judgment by management. This primarily occurs when fair value is derived using non-binding broker quotes where the inputs have not been corroborated to be market observable, or internal valuation estimates that use significant non-market observable inputs. The Company classifies investments in certain private placement bonds, private asset backed securities, and certain preferred stock are currently as Level 3 securities.

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years

Property and casualty insurance reserves are estimates based on historical experience patterns and current economic trends. Actual loss experience and loss trends are likely to differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends. Upon concluding, based on the data available, that an emerging loss trend will continue, the Company adjusts its property and casualty insurance reserves to reflect such trend. These changes in loss trend are reflected in the results of the period of change and included in the Company's financial statements net of reinsurance. The business to which this development relates is not retrospectively rated; therefore, they are not subject to premium adjustments. As the Company cedes 100% of its net losses to its affiliate, Trinity, net reserves as of June 30, 2025 and December 31, 2024 were \$0, and the Company experienced no reserve development.

B. Significant Changes in Methodologies and Assumptions Used in Calculating the Liability for Unpaid Losses and Loss Adjustment Expenses - Not Applicable
