## Notes to the Financial Statements

### **Note 1 – Summary of Significant Accounting Policies and Going Concern**

On March 19, 2025, The Cigna Group completed the sale of its Medicare Advantage, Medicare Individual Stand-Alone Prescription Drug Plans, Medicare and Other Supplemental Benefits, and CareAllies businesses to Health Care Service Corporation ("HCSC"). The Company was included as part of this transaction. As a result of this sale, the Company's ultimate parent is now HCSC, effective as of the transaction closing date.

#### A. Accounting Practices

The financial Statements of HealthSpring National Health Insurance Company, formerly Cigna National Health Insurance Company, ("HNHIC" or "the Company" are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

(8) NAIC SAP (5 – 6 – 7 = 8)	XXX	XXX	XXX	\$ 12,252,488	\$ 47,248,676

#### B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Health premiums are earned ratably over the terms of the related insurance. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. The Company pays dividends to participating policyholders.

The Company uses the following accounting policies:

- (2) Basis for Short-Term Investments, Bonds and Amortization  
Bonds not backed by other loans are stated at amortized cost using the interest rate method, except for those bonds with an NAIC 3-6 designation, which are carried at the lower of amortized cost or fair value. Fair values are calculated based on market prices provided by the custodian. If there are no market prices provided by the custodian, the fair value is calculated by the Company in conjunction with its investment advisors. All NAIC Securities Valuation Office (SVO) identified bond exchange-traded funds (ETFs) held by the Company are reported at fair value.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology  
Asset-backed securities are carried at amortized cost, except for those asset-backed securities with an initial NAIC 3-6 designation, which are carried at the lower of amortized cost or fair value.

Prepayment assumptions for asset-backed securities are obtained from Mortgage Industry Advisor Corporation (MIAC) Mortgage Industry Medians (MIMs), Moody's Analytics, and Reuters, and the retrospective adjustment method is used. Once a asset-backed security has recognized an other-than temporary impairment (OTTI), the security is prospectively accreted over its remaining life to the undiscounted estimate of principal recovery.

#### D. Going Concern

In accordance with SSAP No. 1, "Accounting Policies, Risks and Uncertainties, and Other Disclosures," management has made an evaluation of the Company's ability to continue as a going concern, including such factors as its current financial position, recent earnings and cash flow trends and projections, liquidity and capital requirements, readily available sources of liquidity and such other factors deemed by management to be appropriate under the circumstances. Management has assessed and concluded that there were no conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date the financial statements are issued. Accordingly, the accompanying financial statements have been prepared on the going concern basis.

### **Note 2 – Accounting Changes and Correction of Errors**

Statement of Statutory Accounting Principles (SSAP) No. 26, Bonds, SSAP No. 43 Loan-Backed and Structured Securities, and other related SSAPs were updated as part of the NAIC's principle-based bond definition project. Under the new bond definition, bonds are classified as either an "issuer credit obligation" or an "asset-backed security" and must establish a creditor relationship. Securities that exhibit equity-like features will transition to a new accounting and reporting standards under SSAP No. 21, Other Admitted Assets. The revisions were effective January 1, 2025. Adoption of this guidance did not have a material impact on the Company's financial position and results of operations.

### **Note 5 – Investments**

A. - C. Not applicable.

D. Loan Backed Securities

- (1) Prepayment assumptions for fixed-rate agency mortgage-backed securities are determined utilizing MIAC MIMs. MIMs are derived from a semimonthly dealer-consensus survey of long-term prepayment projections. Prepayment assumptions for other mortgage-backed, loan-backed and structured securities are obtained from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, data is obtained from Reuters which utilizes the median prepayment speed from contributors models.
- (2) In 2025, the Company has not recognized any other temporary investments (OTTIs) on loan backed securities that are classified under either intent to sell or under inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis.
- (3) The Company did not recognize any OTTIs on loan-backed securities during the period ended June 30, 2025.
- (4) There were no loan-backed and structured securities with a fair value lower than amortized cost as of June 30, 2025.
- (5) The Company believes that all unrealized losses on individual securities are the result of normal price fluctuations due to market conditions and are not an indication of OTTI. Market conditions include interest rate fluctuations, credit quality, supply, and demand.

### **Note 14 – Liabilities, Contingencies and Assessments**

B. Assessments - There were no material impacts to existing or new guaranty fund assessments for the three months ended June 30, 2025.

F. All Other Contingencies

Other Legal Matters

In the normal course of its business operations, the Company is involved in litigation and other regulatory matters from time to time with claimants, beneficiaries, and other parties. When the Company, in the normal course of its regular review of such matters has determined that a material loss is reasonably possible, the matter is disclosed. In accordance with Statutory Accounting Principles, when litigation or other regulatory matters result in loss contingencies that are both probable and estimable, the Company accrues the estimated loss by a charge to operations. The amount accrued represents management's best estimate of the probable loss at the time. If only a range of estimated losses can be determined, the Company accrues an amount within the range that, in management's judgment, reflects the most likely outcome. If none of the estimates within the range is a better estimate than any other amount, the Company accrues the mid-point of the range.

## Notes to the Financial Statements

Management does not believe that litigation or other matters currently pending against the Company would have a material adverse effect on the Company's results of operations, financial condition or liquidity based on its current knowledge of those matters.

### **Note 20 – Fair Value Measurements**

#### **A. Fair Value Measurements**

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that gives the highest rating to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). There were no changes in valuation techniques from the prior period.

- Level 1 –** Inputs are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.
- Level 2 –** Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
- Level 3 –** Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.
- Net Asset Value (NAV) –** NAV per share is the amount of net assets attributable to each share of capital stock (other than senior equity securities, that is, preferred stock) outstanding at the close of the period. It excludes the effects of assuming conversion of outstanding convertible securities, whether or not their conversion would have a diluting effect.

In order to be classified as Level 1, unadjusted quoted market prices for identical assets or liabilities in active markets must be available. Fair values based on quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the investment (e.g., market interest rates and volatilities, spreads, yield curves, reported trades, broker/dealer quotes, bids, and offers) are classified as Level 2. Fair values not determined using the methods applicable to Levels 1 and 2, such as using discounted cash flow analysis, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing) or other methods, models, and assumptions that management believes market participants would use to determine a current transaction price are assigned to Level 3.

The Company's invested assets subject to this disclosure are priced principally through independent pricing services that obtain prices from reputable pricing vendors in the marketplace. Through contracted custodians and software vendors, the Company obtains prices for all securities and continually monitors and reviews the external pricing sources while actively attempting to resolve any pricing issues that may arise. These service providers use a market approach to find pricing of similar financial instruments.

These valuation techniques involve some level of management estimation and judgment, which become significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model, or input used.

### **Note 21 – Other Items**

No significant changes.

### **Note 22 – Events Subsequent**

Management has evaluated the financial statements for subsequent events through August 14, 2025, the date financial statements were available to be issued.

On May 13, 2025 and July 18, 2025 the Company received a \$20,000,000 and \$10,000,000 capital contribution from HCSC Medicare Inc. In accordance with paragraph 8 of NAIC Statements of Statutory Accounting Principles No. 72, "Surplus and Quasi-Reorganizations" (SSAP No. 72) and with permission of the Ohio Department of Insurance, the contribution was recognized in the accompanying Statements of Assets as a Receivable from Parent, Subsidiaries and Affiliates and in the Statement of Liabilities and Capital and Surplus as a credit to Gross Paid-in and Contributed Surplus.

On May 30, 2025 and July 18, 2025, the Company contributed \$6,000,000 and \$14,000,000, respectively, to Provident American Life and Health Insurance company. In accordance with SSAP No. 72 and with permission of the Ohio Department of Insurance, the contribution was recognized in the accompanying Statement of Assets as a common stock investment and in the Statement of Liabilities and Capital and Surplus as a credit to intercompany payables.

### **Note 23 – Reinsurance**

No significant changes.

### **Note 24 – Retrospectively Rated Contracts and Contracts Subject to Redetermination**

Not applicable.

### **Note 25 – Change in Incurred Losses and Loss Adjustment Expenses**

A. Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2024 were \$26,076,264. As of June 30, 2025, \$20,826,491 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$3,346,844 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Medicare Supplement business. Therefore, there has been a \$1,902,930 favorable prior year development since December 31, 2024 to June 30, 2025. The change is generally the result of ongoing analysis of recent loss development trends.
