1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Policies

The financial statements of Oscar Buckeye State Insurance Corporation ("The Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("ODI").

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Ohio. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

		SSAP #	F/S Page	F/S Line #	Nine Months Ended September 30, 2025	Twelve Months Ended December 31, 2024

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned ratably over the terms of the related insurance policies. Ceded premiums are earned ratably over the terms of the applicable reinsurance contracts. Expense incurred in connection with acquiring new insurance business, including acquisition cost such as marketing, are charged to operations as incurred.

In addition, the Company used the following accounting polices:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized costs using the effective interest method.
- (3-9) Not Applicable
- (10) The Company anticipates net investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 54, Individual and Group Accident and Health Contracts.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from prior period.
- (13) The Company's Pharmacy Benefit Manager, CVS Health, has contractually guaranteed minimum pharmaceutical rebates. These amounts determine the Company's estimated receivable adjusted for payments received.

D. Going Concern

As of November 15, 2025, the management team has evaluated the Company's operations and financial position. No uncertainties or doubt exists about the Company's ability to continue as a going concern.

A.-D. Oscar Health Inc. ("OHI" or the "Parent") funds the Company, if necessary, in order to support ongoing operations and meet the reserve requirements established by the ODI. The Company received no capital contributions during 2025 and 2024.

Effective 2024, the Company ("Lender") entered into a revolving credit agreement with Oscar Insurance Corporation of Ohio ("Borrower") at an interest rate equal to the Secured Overnight Financing Rate ("SOFR"). This agreement allows the Borrower to draw up to a limit in aggregate principal amount of \$15,000,000 from the Company. As of September 30, 2025, the Company had no outstanding balances due from the Borrower related to this agreement.

The Company was due to pay \$3,170,206 to its affiliate, Oscar Management Corporation ("OMC"), as of September 30, 2025 for operating expenses paid on the Company's behalf. The Company is billed 30 days following the close of the month and will then reimburse these amounts 15 days after receipt of invoice. The Company participates in an Income Tax Allocation Agreement with its parent, OHI, and each of the affiliates included in the consolidated federal tax return. The Company was due to receive \$1,665,554 and \$2,419,122 from OHI as of September 30, 2025 and December 31, 2024, respectively.

E. Certain general and administrative costs, including personnel and facility costs as well as charges for legal, marketing and accounting services are paid by OMC and subsequently reimbursed by affiliated companies.

**20. Fair Value Measurements**

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. Fair value represents the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants. The Company's financial assets and liabilities measured at fair value on a recurring basis are categorized into a three-level fair value hierarchy based on the priority of the inputs used in the fair value valuation technique.

The levels of the fair value hierarchy are as follows:

Level 1 - Inputs utilize quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 - Inputs utilize quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, or model-derived valuations in which all significant inputs are observable in active markets.

Level 3 - Inputs utilized are unobservable but significant to the fair value measurement for the asset or liability. The unobservable inputs are used to measure fair value to the extent relevant observable inputs are not available. The unobservable inputs typically reflect management’s own estimates about the assumptions a market participant would use in pricing the asset or liability.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

**A. Fair Value**

(1) Fair Value Measurements at Reporting Date:

(2) The Company does not have any financial assets with a fair value hierarchy of Level 3 that were measured and reported at fair value as of September 30, 2025 and December 31, 2024.

(3) Transfers between fair value hierarchy levels, if any, are recorded as of the beginning of the reporting period in which the transfer occurs. There were no transfers between Levels 1, 2, or 3 of any financial assets or liabilities during the periods ended September 30, 2025 and December 31, 2024.

(4) Fair values of debt and equity securities are based on quoted market prices, where available. The Company obtains one price for each security primarily from a pricing service, which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, and, if necessary, makes adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, benchmark yields, credit spreads, default rates, prepayment speeds and non-binding broker quotes.

(5) The Company does not have any derivative assets and liabilities.

Notes to Financial Statements

25. Change in Incurred Claims and Claim Adjustment Expenses

- A. Reserves as of December 31, 2024 were \$62,851,800. As of September 30, 2025, \$47,683,551 has been paid for insured claims and claim adjustment expenses attributable to insured events of the prior years. Reserves remaining for prior years are now \$17,152,075 as a result of re-estimation of unpaid claims and claim adjustment principally on our health line of business. Therefore, there has been \$1,983,826 of unfavorable (favorable) prior-year development from December 31, 2024 to September 30, 2025. The increase (decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
- B. There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses, including reasons for the change and the effects on the financial statements, for the most recent reporting period presented.
