Reserves remaining for prior years are now \$9,482,132 as a result of the re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior year development of \$8,115,585 during 2025 for the year ended December 31, 2024. The favorable reserves developments are attributable to claims settled for amounts less than originally estimated, primarily due to lower health care cost trends as well as the actual claim submission time being faster than assumed in establishing the accrued medical expenses in the prior year. These adjustments are generally the result of ongoing analysis of recent loss development trends.
